The meeting was largely attended
by local and coast sportsmen. Tem-
porary officers were elected. An-

ACADEMY SUMMER CAMP ENDS

Today at St. Joseph Acad-
emy—Seventy-Five Girls
Registered—Camp
Successful.

The six weeks summer camp at
St. Joseph Academy under the di-
rection of the Sisters of St. Joseph
with Mrs. Isabelle Garrison of Baton
Rouge assisted by Miss Margaret
Jane Williams of Gulfport and Miss
Virginia Gaines of Arkansas, ended
Friday (today) with one of the most
successful records for attendance
and activity since the institution of
these camps at the Academy.

Seventy-five girls varying in age
from six to twenty years were reg-
istered and a program of athletics
including tennis, badminton, swim-
ming, boating, archery, croquet and
horse-back riding was under the di-
rection of the camp counselor and
her assistants.

A number of enjoyable fishing
trips and boat rides out in the gulf
and on Jordan and Wolf rivers were
given, and several flourishing and
soft-crabbing trips enjoyed by dif-
ferent groups through the efforts of
Mr. and Mrs. L. S. Elliott.

The summer camp, held annually,
grows in number each summer and
the Sisters each year improve on it
and add to the attractions and ac-
tivities for the young people registered.

After nine months of school studies,
the campers enjoy the recreation and
rest offered amidst comfortable and
healthful surroundings and under able
guidance of experienced counselors
and return to their homes in the
cities with renewed vigor and health.

UNUSUAL BUILDING ACTIVITY

Building Wave Noted Over
Bay-Waveland Section—
Major Buildings Noted

Summer building activities con-
tinue with the greatest part of it
being accomplished in Waveland
where a number of new summer cot-
tages are appearing.

The former Schwartz property,
purchased some time back by Mr.
T. Uddo of New Orleans, has been
painted and improved and in the
rear on the large grounds two at-
tractive summer cottages for rental
purposes have been erected and are
occupied with summer residents.

It is understood that bids have
been let for the construction of an
attractive dwelling for John Holzer,
of New Orleans, on his lot on the
Waveland Beach near O'Dwyer prop-
erty.

The Diehlman center, Evangelical
Lutheran summer camp, completed
some short time ago, and of the most
modern and up-to-date type of sum-
mer camp, presents a lively spot on
the Waveland Beach also, and a
great enhancement to this section of
the waterfront.

The Monti property property, on
Hancock Street, between Washington
and Citizens streets, has recently been
completely renovated and presents
an attractive appearance.

BAY-WAVELAND GARDEN CLUB'S JULY MEETING

Interesting Meeting—Votes
\$25.00 Out of Treasury
For Red Cross Fund
Drive.

The July meeting of the Bay-
Waveland Garden Club was held on
last Thursday afternoon at the home
of Mrs. Harry S. Pond on South
Beach and Ballentine street with
one of the largest attendances noted
at any of the summer meetings yet,
in spite of the inclement weather.

However, on account of the rain it
was not possible to meet in the gar-
den, and the meeting was held in-
doors.

Mrs. George R. Rea presided and
the new secretary, Mrs. Peter J.
Burge, officiated for the first time.

Mrs. Leo W. Seal read the treasur-
er's report, and Mrs. Roland J.
Weston reported favorably on the
findings of a special committee ap-
pointed to endeavor to have an un-
sightly building in a conspicuous part
of town either removed or repair-
ed.

Upon a motion made and unani-
mously agreed upon, it was decided
that the Garden Club donate \$25.00
out of its Pageant Fund to the Han-
cock County Chapter of the Ameri-
can Red Cross.

A discussion was held on the sub-
ject of the Garden Club sponsoring
a shelf in the local W. P. A. Library
on which the Garden Club would
provide books and papers on gar-
dening and the Cultivation and Care
of Plants and Flowers and a com-
mittee was appointed to arrange for
the providing of this new feature
and appointing of a member of the
Club to take charge of it.

Miss Miriam Engman, chairman
of the Program Committee, intro-
duced the speaker of the afternoon,
Mrs. John McKenna of Long Beach,
who gave an interesting account of
the work accomplished by the Long
Beach Garden Club during the past
year and spoke of the plans for the
new year with several new plans ad-
ded.

Mrs. McKenna stated it was the
hope of the Long Beach Club to
impart to members and persons in-
terested in garden club work that
the clubs were not organized merely
for social contact, but that they
had definite constructive plans, Mrs.
McKenna's talk was an excellent one
and immensely enjoyed by everyone
present.

Mrs. Pond was assisted by her co-
hostesses, Mrs. Russell Caffery and
Mrs. L. T. Boyd in serving refresh-
ments after the meeting.

The next meeting of the Garden
Club will be held at the home of
Mrs. Roland J. Weson with Mrs.
Leo W. Seal as co-hostess.

CITY SCHOOL TRUSTEES ELECT TEACHERS FOR NEXT YEAR TERM '40-41.

Faculty of Bay White Schools Announced—To Be Head-
ed by City Supt. S. J. Ingram—Miss Dorothy Tudury—
Added to Faculty—Miss Loretta Smith Marries.
—Not an Applicant.

Bay St. Louis is more than ordi-
narily proud of its schools, one and
all, without exception. "Public and
private, secular and religious. They
grade high and recognized over coun-
try."

Prof. S. J. Ingram as general city
superintendent, has a fine organiza-
tion and the work of the school rates
high. This is best attested to by the
increased enrollment each year, and,
in addition, many people live here
to allow their children to attend the
well-known schools.

Recently the Board of City Trus-
tees elected the faculty for 1940-41
and made little or no changes. Miss
Dorothy Tudury, daughter of Mr.
and Mrs. Theodore Tudury, graduate
of MSCW, was elected to the R. W.
Webb school. Other slight changes
were made.

Eight new rooms are in course of
construction over at Central High
School and it is expressed by Mr.
Ingram the additions will be finished
during the winter. This is a sub-
stantial and essential improvement
to our schools and add to the use-
fulness of the school system by en-
larging capacity to take care of
more pupils and by appointing a fa-
culty generally approved.

The following faculty has been
selected:
S. J. Ingram, Superintendent.
S. A. Clark, Principal and Science
Teacher.
Mrs. Ashcraft, 1st grade.
Miss L. Saucier, 2nd grade.
Miss C. Spotorno, 3rd grade.
Mrs. Anderson, 4th grade.
Miss F. Seafide, 5th grade.
Miss G. Perkins, 6th grade and

SUMMER SCHOOL OPENS.

Summer school classes opened on
Monday morning the 15th at Central
High School with Professor S. J.
Ingram in charge and two members
of the faculty assisting in the teach-
ing of the classes.

Twenty-three students registered
and will attend daily classes for the
six weeks term of summer school.

With a total of 1227 ballots cast in
the primary election in Bay St. Louis
on Saturday last it will be noted
each of the administration candidates
were re-elected by majorities, and
that a second primary will not be
necessary.

Even though the weather was
threatening during a part of the day
a splendid vote was polled, a com-
pliment to the candidates and to the
intelligence of the suffrage of our
city, realizing well their duty is to
vote, to cast their say and then to
abide by the result of the majority.

Held under the corrupt practices
act, there was no distribution of per-
sonal cards, dodgers and whatnot
around the polls. The law is quite
satisfactory and means for the safe-
ty and honesty of a correct vote.
Regular election will be held on
Monday, August 12.

Our people gracefully abide by the
result of the majority and the minor-
ity as well. The results speak for
themselves. A copy of the official
report is herewith reproduced. For
future reference and to those espe-
cially that these matters are particu-
larly interesting, it is suggested to
clip this out and keep for reference.

Figures of this kind in future are
always of interest and serve for in-
formational purpose.
For Mayor 1191 ballots were cast,
with 26 spoiled.

For Commissioner (2) 1141 cast,
with 46 spoiled.

WHAT EVERY COMMUNITY NEEDS.

ANY community in the United States, including Bay St. Louis, can make progress whenever the majority of its inhabitants are more interested in the general welfare than in envying their neighbors.

The population of any given area, united in common advantages, facing the same disadvantages and seeking methods of growth, can access its prospects upon the basis of its average inhabitant.

It takes more than natural resources to make a prosperous people. This applies to nations, states, counties and municipalities. The spirit of the people, within certain physical boundary lines, is more important to the welfare of the people than the possession of certain assets which are often deemed advantageous.

You can give a locality, like the Gulf Coast, an excellent climate, wonderful natural resources and an industrial set-up that is efficient but, unless you can breathe a common purpose into the life of the area, it will fall short of becoming highly prosperous.

This does not mean that some few citizens may not be able to milk the area for their benefit and become rich. It does not mean that the area as a whole and its inhabitants cannot become prosperous. Great wealth, side by side with abject poverty, does not make an ideal community and never will.

TRAINING EXPERT WORKMEN.

A TRAINING program which is expected to reach 1,500,000 young Americans will soon get underway when 150,000 workers will be given vocational training in public schools.

The program will be carried out under the general supervision of the Federal Office of Education, but local school officials will be responsible for the conduct of classes. The first classes will be held in July, August and September at vocational training schools throughout the country. The Office of Education will pay for the use of the schools as well as the salaries of teachers and supervisory personnel.

While 50,000 of the workers will come from the WPA, the other 100,000 will be selected through State Employment services from the lists of workers now in industry who wish to improve their skill. If this program succeeds, the present indolence in the area of compulsory training will be abandoned.

The defense of the United States is a matter of concern to every citizen; you can't defend a country with money alone.

Advertising never hurts the man who uses it intelligently, but it penalizes the merchant who is too busy to pay any attention to it.

Some day the democratic peoples will have sense enough to join forces to defend their ideal against dictators who are united but it may be too late.

With the President appointing Republicans to his cabinet and the Republican party nominating an ex-Democrat, things are coming to a pretty pass in the United States.

National Democratic Chairman James A. Farley announced that for the first time in history the party would have all its bills paid and money in the bank when the national convention is over. Chicago paid \$150,000 for the convention.

Sidney McLaurin of Brandon has been named by Gov. Johnson as state comptroller, the appointment to take effect next January 1, when the term of J. C. Fair, present state banking superintendent expires. McLaurin is a long-time political figure in the state and is a brother of former Gov. McLaurin.

Hallie Selassie, black-bearded little Lion of Judah, is once more recognized as Emperor of Ethiopia by the British, and his government is now a full ally against Italy. Ethiopian independence is assured "when the war is won" British announced. About 400,000 Ethiopians are ready to fight Italy if they can get guns, it is stated.

Roland Wall and his WPA head men are on the move again. This time Wall will be sent to Atlanta while his two chief assistants, Parker and White, go to the Washington staff headquarters. Cause of the transfer: Charges that the WPA might be used for political purposes in the coming campaign. Bilbo has been after Wall's scalp for years and it is to keep down any suspicion of WPA interference that the shift has been made.

With a goal of 25,000 warplanes in the next two years, the national defense commission has announced the letting of contracts for one hundred million dollars worth of this form of defense since July 1, when funds for the program became available. The ruling that competitive bidding not be required greatly speeds up the work of placing contracts.

Fifty British tankers are being held under the muzzles of Romanian guns in ports of that country, preventing them from sailing. Hungarian and Bulgarian demands are being held back by orders from Hitler to wait until the Battle of Britain is over. It is believed this will keep the Balkans quiet while Nazi forces are busy in the attempt to conquer England.

CITY ADMINISTRATION RE-ELECTED

SATURDAY'S municipal primary election for Bay St. Louis passed off without the slightest ripple of disturbance. It was, perhaps, the best orderly election ever conducted here. Not that our elections are not generally peaceful, but for the reason this one in particular was conducted in smooth manner and without the slightest untoward circumstance.

The Sea Coast Echo, as the majority of voters well demonstrated with their ballot, is well satisfied with the result. We advocated the reelection of the present administration and well were the reasons for re-election stated. There are many reasons. A trio of men, experienced and capable, had proven their ability time and again and their record is one that warranted their return to office. Since there was no valid reason for a change it was logical to conclude the chances for reelection were mighty good. And that this thought was well sustained by the majority of each candidate—going in on first ballot.

Mayor Blaize and Commissioners Bourgeois and Perkins have repeatedly proven their sterling ability, their progressiveness and enterprise and their willingness to make Bay St. Louis the best town in which to live. They managed the municipal affairs with success and that in view of the fact there are little funds to work with. Repeated reductions of taxation have cut the city's finances to the bone. As executives, financiers and students of economic problems as they affect a municipality they have well proven themselves of the splendid tribute paid them last Saturday. This is indeed a vote of confidence and Messrs. Blaize, Bourgeois and Perkins have every reason to feel proud of this distinction.

That they were elected in the first primary, scoring a majority in each instance, is well worthy of record. It is a compliment—and one that The Echo feels they are well worthy of.

Good wishes for continued success for the next four years, gentlemen.

HOW ABOUT YOUR FREEDOM?

MANY Americans are so much interested in the heroic struggle of our ancestors for freedom and so lost in admiration of the epic struggles by which they handed down to successive generations the ideals of liberty that they forget the present opportunity for serving liberty and freedom for future generations. Our ancestors if we have the right idea, were not steamed up over the idea of passing along some boon to posterity. They were concerned with the defense of their own rights. It might pay the present generation to contemplate the fact and make effective defense of the rights that now belong to the people of the United States.

We cannot conceive that a world, dominated in Europe and Asia by the forces of Hitler, Mussolini, Stalin and Japan, with control of a great part of Africa, will be a healthy domicile for men who enjoy liberty. The belief that this globe can exist in peace, half-Hitlerized and half-free, is one conclusion we cannot follow.

It seems to us that the conflict between Germany and Great Britain involves the fundamental rights of individuals, with freedom of all types certain to be extinguished if the German theories triumph. That such a revolutionary conception of man and his functions can sweep over three-fourths of the earth's surface and leave the other one-quarter alone is not to be believed.

PERSHING URGES AID TO BRITISH.

THE non-partisan committee to defend America by aiding the Allies recently made public a telegram from General John J. Pershing, urging Americans to lay aside partisanship and work together to build up the defenses of their country against "the greatest peril with which America has ever been faced."

General Pershing pointed out that "so long as Britain stands, the danger will be kept at a distance," but, he adds, "while organizing and equipping ourselves, it is sound sense to do all that we can to keep Britain supplied with the food, arms and munitions of which she must have a continuous supply if that outer bulwark of democracy is not to crumble."

The Commander-in-Chief of the American Army in France during the World War says that if we render material assistance may not be demanded of us. He says that British manpower is far from exhausted, but "there is desperate need for the products of our farms and factories."

GOLD MEANS POWER.

THE gold standard of the United States has passed the 20,000,000,000 level and some Americans continue to wonder whether it will prove a benefit or not.

Of course, our supply of gold will not do the nation much good as long as remains locked in the vaults at Fort Knox, Kentucky. If the United States can decide to use the gold stocks wisely, it will be a tremendous asset throughout the world.

To ascertain the value of our gold and the keen desire of other nations to possess it, all that we have to do is to make some arrangement for the other peoples of the world to get a chance at it.

BY AIR TO ALASKA

A COMMERCIAL passenger airline is now operating between Seattle, Washington, and Alaska, with the trips taking just a few minutes over five hours.

This should interest Americans, concerned about national defense, because a commercial plane flies around 160 miles-an-hour but "bomber time" is 300 miles-an-hour. This means that Japanese bases, off the tip of the Aleutian Peninsula, are just about nine hours' flying time from the State of Washington.

These figures explain the desire of Army and Navy officials to develop air facilities in Alaska and their regret that Congress waited more than a year to give them the money for this purpose.

Slavery, we have heard, originated in war; in Europe today there are thousands of slaves, working for nations that conquered their land.

Hollywood Notes.

IN the forthcoming screen production of Louisa M. Alcott's "Little Women," Gene Towne and Graham Baker, who are adapting it, have loaded it with laughs, introducing a confidence man (W. C. Fields) and his assistant (Jack Oakie). Elsie, a Jersey cow, who will play the role of Buttercup, will make her film debut in this picture.

When Paul Muni appears in the lead in "Frontier Doctor," a story dealing with pioneer days in Oregon, he will have had five roles which portrayed him as a doctor.

Warners has announced that a search is on to find a red-headed child "with legs as shapely as Ann Sheridan's" to play the role of Peggy Nash in "City For Conquest."

John Barrymore wants to play to lead in the Shakespeare play, "King Lear," just as soon as his current movie is completed, his current play "My Dear Children," finishes its tour and is made into a movie. The "King Lear" role is to be played on the stage, he says.

Robert Montgomery, who volunteered for ambulance service in France and served as a driver a short time, is back in this country and evidently glad of it. Answering whispered rumors that his service was a "publicity stunt," Montgomery declared, "Anybody who thinks I'll risk my neck for a stick of type is a cockeyed maniac."

"Arizona," which is being produced by Columbia, is proving a big headache for the studio. Started in August, it was abandoned when war broke out. Having \$300,000 invested in the film, it was decided, in November, to go on with production. It has been before the cameras for three months and the end is not yet in sight. Before completion, it will cost the studio an estimated \$2,000,000.

Story trouble and professional jealousy between the leading players is causing RKO trouble with "Lucky Partners," in which Ginger Rogers and Roland Colman are starred. The original budget of \$650,000 has had to be increased to \$1,200,000.

Because of the public's apathy toward propaganda pictures and anything Nazi, Twentieth Century-Fox has changed the title of the picture, "I Married a Nazi," to "The Woman I Married."

Since the arrival in Hollywood from England, Alexander Korda has announced that he will film the story of Hernandez Cortez, under the title, "The Conqueror" and will use Merle Oberon in the role of Marina, the Indian girl who guided Cortez through Mexico.

That necessary portion of Hollywood referred to generally as the "stand-ins" are girding for battle to gain greater recognition and prestige. In the future, they declare, they must be called "assistant stars."

Lucia Lasert, popular and beautiful New York model, whose face and form has graced many national magazines in recent years, has signed movie contract and, after studying damatics for several weeks, passed her screen test with flying colors. Her first appearance on the screen will be in "Money and the Woman," with Brenda Marshall and Jeffrey Lynn.

ed her screen test with flying colors. Her first appearance on the screen will be in "Money and the Woman," with Brenda Marshall and Jeffrey Lynn.

With the death of Florence Roberts, who played the grandmother role in the Jones Family pictures, the studio has decided to abandon production of the series.

So delighted was Hal B. Wallis, producer, with the performance of Richard Nichols, 4 year old child actor, in "All This and Heaven, Too," that he has issued orders to his staff to seek a story to give the child a starring opportunity.

IT'S TRUE! By Wiley Padan

New York, N. Y.—"IT'S TRUE!" that Mary Boland's hobby is growing rare orchids, says Wiley Padan. "Miss Boland, incidentally, was the first actress to play on the present M-G-M lot. In the silent picture days, Thomas Ince had her in his company. Her company was working at Santa Monica."

HOMESTEAD EXEMPTION HAS MEANT MUCH TO HANCOCK COUNTY

Home Owners Have Saved An Average of \$29.21—Exemptions Total \$43,457.28.

Hancock county home owners have saved an average of \$29.21 to date under the Hugh White Homestead Exemption program, according to figures compiled from reports of the State Tax Commission by campaign candidate for the U. S. Senate in the August 27 primaries.

A total of 1488 Hancock County home owners obtained exemptions totaling \$43,457.28 for an average cash saving per homestead of \$29.21. The compilation shows. The total includes two 1939 and one 1940 reimbursement from the state to the counties, road and school districts, for taxes which otherwise would have to be paid by home owners; and also includes the amount of exemption from the state's eight mill ad valorem tax.

Total savings to 150,000 registered home owners have already reached the enormous total of \$5,605,435, the compilation shows.

After successfully urging the legislature to increase homestead exemption from just state taxes, inaugurated in the Conner administration, from \$1,500 to \$2,500, Governor White spent months working out the basis for a total exemption program, in co-operation with many state officials and agencies. Armed with a preliminary report, he asked the 1938 regular session to name a committee to work with him in getting further information, and working out detailed legislative bills.

With this done, he called the July, 1939 session to order.

1938 special session at which was passed the present homestead exemption act, exempting all homes up to \$5,000 valuation, from all state, county, road and school district taxes, except levies for bond payments which could not be exempted under Constitution.

"In every county I've visited," commented Governor White on his return from a swing around the state, "Home owners have come to thank me for lifting the tax burden on their homes, and to pledge me their support in this campaign, because they say politicians have been promising them tax relief for years, but that homestead exemption is the only real relief they've ever received."

LIBRARY NOTES

Mrs. Pauline Curran Dabney, as only Mrs. Dabney can, reviewed James Street's "Oh, Promised Land" at the Episcopal Parish House on Tuesday morning to a large and appreciative audience. Those who did not avail themselves the opportunity of hearing this delightful review missed a literary treat.

James Street's mother is Mrs. Willie Scott Sreet, daughter of the late Mr. and Mrs. W. T. Scott of Poplarville, and most of her girlhood was spent in that location and she took her high school education there. The Streets now live in Meridian, where Mr. Street, Sr., practices law. We who know the Streets, were glad to meet "Jim" through his book.

If you have not read the new books we have you are missing a treat. They are here for you. Adler's "How to Read a Book"; White's "Wild Geese Calling"; Goudge's "The Bird in the Tree"; Halliburton's "The Story of His Life's Adventure."

Carrier Pigeon On Trip Collapses And Dies; Carried Message.

Steve Faucetta, resident Main street, picked up a carrier pigeon Tuesday morning on the convent premises that was exhausted and soon died after being picked up. An aluminum capsule, fastened to one of the bird's legs carried this in script, "Arrived 12:30. Bought food and car."

On the reverse side was this: "Charley is here. Everything O. K. Will be home Tuesday night, Larry."

Nothing more was revealed but what is narrated above. The bird was of the regular carrier type and observers say it died from apparent exhaustion as no marks or visible signs were visible.

FIRE TUESDAY MORNING

The city fire department was called out Tuesday morning about 8 o'clock to a fire occurring in the home of Joseph Curry, colored, 414 Washington street. The cause of the fire was undetermined and the damage fortunately was slight.
